Report

In this session, students are divided into 10:01 ratio. One mentor is appointed for each 10 students. Mentor identified below average students and talented students through class observation and activities and organized for classes by subject teachers. We merged below average students with talented students for enhancing or sharing knowledge and also organized Expert lectures, Debates, Group discussions, Community activities, Quiz programs for the students. The talented students are motivated by their mentors for joining Communication skills and Personality development programs, which were already run in our college.
